

Business License Research Services

Ensure your licenses
are in compliance

CSC offers comprehensive License Research services that make it easy to understand the requirements for new locations, status of existing locations, and potential over-licensure.

Our experts possess decades of compliance knowledge, enabling us to provide the solution you can rely on for state, county, and municipal licensing needs. For all your license research needs, CSC has the solution.

Need:

We have an existing location, but need to understand what licenses we have and any potential gaps.

Solution:

Existing Location Research

CSC performs research based on your company's location, industry, business activities, and products and services to uncover required business licenses. We verify what's currently on file, what hasn't been filed, what you don't need, and any other potential license gaps. A detailed report is provided, including copies of existing licenses if applicable.

Need:

We opened a new location. What are my licensing needs?

Solution:

New Location Research

CSC conducts detailed research based on your company's location, industry, business activities, and products and services to uncover business licenses with state, county, and municipal licensing authorities. A detailed report is provided to you. Simply complete the forms, sign, and return to the jurisdiction with payment.

Need:

We made some changes to our business. How do I update my license to reflect those changes?

Solution:

Amendment Research

When your company needs to change things like its entity name, address, list of officers and directors, federal identification number, or registered agent, CSC's specialists will prepare a report identifying your requirements, delivering all the necessary documents and information to you.

CSC can help

Streamline your business license process with CSC's comprehensive license research services.
