

Insurance Licensing Services

Eliminate the hassle of managing
your agency and producer licenses

Maintaining order when it comes to your agency, producer, and other insurance-related licenses is a formidable task. With the challenges of multiple agents and agencies, state offices and applications, and a slew of varying due dates, companies run the risk of spending their time managing licensing rather than running their business. CSC drastically reduces that risk with our licensing services developed specifically for the insurance industry.

License administration

- Dedicated insurance specialist
- Expiration date tracking
- Application preparation
- Secure transmission of sensitive data through data request portal
- License fee advancement

Invoicing for completed filings

- Receive a monthly summarized invoice for completed filings
- Service fees and disbursements broken out
- Accounting codes and billing references can be captured

Features

- World-class service from a dedicated insurance license specialist
- Centralized repository of all licensing information
- Web-based secure SOC 2 Type II-audited application available 24x7
- Data request portal for secure transmission of sensitive data
- Proactive filing of insurance license renewals
- Advancement of filing fees on your behalf with no interest or retainer
- Role-based permissions for unlimited user accounts

How it works

- Provide CSC with the unique National Producer Number (NPN) for each license holder
- CSC extracts pertinent insurance license data through National Insurance Producer Registry (NIPR) partnership
- CSC centralizes all retrieved license data in the business license portfolio management system
- A dedicated insurance specialist begins tracking for renewal management
