

Dependable registered agent service is your company's first and best defense against legal action.

The world's most successful corporations trust CSC to provide Registered Agent services in the event of legal action against their company, including unwanted legal outcomes and default judgments. Our Registered Agent service gives you absolute control over your litigation and service of process (SOP) management activities, eliminates unnecessary risk, and enables you to present a solid defense. As a CSC client, you'll benefit from our wealth of experience, nationwide service network, and commitment to superior customer support.

CSC revolutionized the registered agent services industry more than a decade ago with the introduction of electronic SOP.

CSC provides automatic upload of your SOP by entity, creating a perpetual electronic library of your critical documents. As an added service, your SOP can be automatically uploaded to our powerful CSC Matter ManagementSM solution or your in-house system, and organized by any matter category you choose.

No other registered agent service provider can match CSC's experience, reliability, and value.

CSC Registered Agent service features:

- Immediate electronic notification of received and sent SOP documents
- Scanning, image enhancement, and compression within 24 hours to render your SOP fully searchable, including all envelopes, attachments, and exhibits
- · Online tracking for proof of delivery
- · Secure, perpetual storage of your documents in electronic form
- Dedicated client support during all business hours via phone and live chat within our CSCNavigator® platform
- Effortless, no-cost, change of agent services, including audits in all jurisdictions

Do More with CSC

- CSC Entity ManagementSM: Named Best Entity Management System nine years in a row by the New York Law Journal
- CSC Matter ManagementSM: Rated #1 by the New York Law Journal for four consecutive years
