

Global Subsidiary Management

Managing global corporate governance is complex. Legal teams are facing increased workloads and even bigger budget cuts. Regulations are constantly changing and vary from country to country, making it challenging to master evolving rules at the jurisdiction level—not to mention the potential risks of non-compliance.

Additionally, the rise in legal technology presents a big opportunity for legal teams to streamline workflows and simplify operations. As a result, companies need a global provider that understands managing complexity in an ever-changing compliance environment. **CSC** is your partner, simplifying and centralizing the management of your corporate entities around the globe.

Why choose CSC

Centralized global presence: With CSC, you work with one provider. Through centralized activities and a dedicated team in your time zone, you'll leave behind juggling multiple providers and inconsistent processes.

Jurisdictional expertise: With in-country expertise and an experienced and tenured staff, you can rest assured we have you covered when it comes to handling what's required in-jurisdiction and for staying on top of the latest regulations and jurisdiction developments. Wherever you are, we're there.

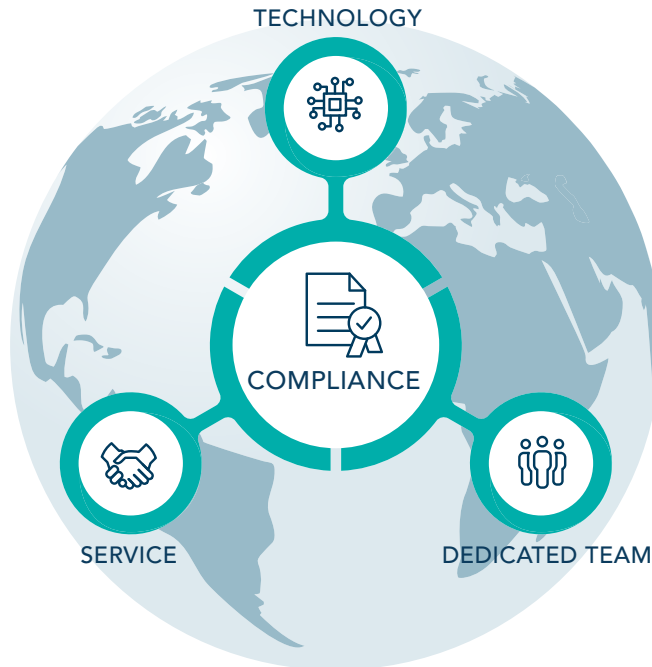

World-class service: Service is at the center of everything we do. We treat your business with the same urgency, the same attention to detail, and the same sense of responsibility that we do our own. Plus, you'll have budget certainty with no surprise fees.

Industry-leading solutions: Backed by stringent data security protocols, our award-winning technology solution, CSC Entity ManagementSM, provides unparalleled transparency into your critical entity data and documents, and is configurable to meet your specific needs.

We're ready to talk.
