Simplifying compliance and governance for your business worldwide

Managing global corporate governance is complex, with severe penalties for non-compliance.

CSC takes a proactive approach to managing your subsidiaries' compliance obligations effectively, efficiently, and centrally from our U.S. headquarters.

Every time CSC conducts an entity transaction on your behalf, the CSC Entity Management platform captures that data and automatically builds it into your electronic portfolio. This allows an unlimited number of users to monitor the data, documents, and deadlines of all your global corporate entities at any time.

Our Global Subsidiary Management features include:

- Corporate Health Check—review and report on the status of the entity's public record, identification of deficiencies, and advice on remediation
